Professional Summary

Results-driven Full Stack Developer with one year of freelance experience specializing in building scalable web applications, robust APIs, and responsive user interfaces. Proficient in TypeScript, React, Next.js (Front-End), and NestJS (Back-End), with a strong foundation in software engineering principles. Passionate about writing clean, efficient code and delivering high-quality, performance-optimized solutions.

Technical Skills

Programming Languages: TypeScript, JavaScript, Python, Java, C#

Front-End Development: React, Next.js, HTML5, CSS3, SASS, Bootstrap, Tailwind CSS

Back-End Development: Node.js, Express.js, NestJS

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, Docker, Postman, VS Code, AWS, Firebase, CI/CD

Work Experience

Freelance Full Stack Developer | Cairo, Egypt | 2024 – Present

- Developed end-to-end web applications using TypeScript, Next.js (Front-End), and NestJS (Back-End).
- Designed and implemented RESTful APIs and GraphQL endpoints.
- Built responsive and accessible user interfaces using React, Next.js, Bootstrap, and Tailwind CSS.
- Modeled database schemas and optimized queries using MongoDB and MySQL.
- Managed full project lifecycles independently, ensuring timely delivery and client satisfaction.
